## WAR! What Is It All About?

HAS the whole world gone stark mad over a very foolish and trivial question? Are swords rattling, cannon rumbling, mailed armor glistering just because Russia wanted to show her love for the little brother—Serbia? Tear aside the curtain of Europe's politics and see the grim and sinister game of chess that is being played. See upon what a slim, yet desperate, excuse the sacred lives of millions are being sacrificed. Read the history of the past one hundred years, as written by some of the greatest authorities the world has ever known, and learn the naked, shameful truth. Just to get you started as a Review of Reviews subscriber, we make you this extraordinary offer. We will give to you

## FREE—"Europe at War"

A big book and over 300 pages, size 10 x 7 inches, handsomely and durably bound in cloth, containing the dramatic history of the great events leading up to the present time; over 50 important and timely special articles by experts on the different phases of the conflict; hundreds of graphic pictures, portraits, photographs, diagrams, specially drawn war maps, illuminating statistical records, copies of official documents and diplomatic messages exchanged between the powers—a clear, vivid, accurate, permanent, interesting and valuable record—a record which once seen you will not willingly be without. Europe's past and present are here dramatically pictured and presented. Hundreds of illustrations graphically tell their own stories. More fascinating than any romance, here is a history so vivid, so dramatic, so stirring, so fascinating, so realistic, so wonderfully presented, so thrillingly told that it leaves an indelible impression.

### Your War News Clarified

It is not enough to read the daily news reports. Your ability to comprehend conditions and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos and the "Review of Reviews" will do it for you.

## Mrs. Powell Almost Dead.

Dry Ridge, Ky.—"I could hardly walk across the room," says Mrs. Lodia Powell, of Dry Ridge, "before I tried Cardui. I was so poorly, I was almost dead. Now I can walk four miles and do my work with much more ease. I praise Cardui for my wonderful cure." Cardui is successful in helping sick women, because it is composed of ingredients, that act specifically on the womanly constitution, relieving headache, backache, irregularity, misery and distress. Only a good medicine could show such continual increase in popularity as Cardui has, for the past 50 years. Try Cardui, the woman's tonic.—Advertisement.

## Why Children Leave School.

Half the children who left school, in a large group studied by investigators of the federal department of labor, did so because of their dislike for school work. Less than a third left because their parents could not afford to keep them longer in school. These facts are brought out in a recent government bulletin. They help explain why the Gary system of education is gaining so many adherents all over the country.—Kansas City Star.

## Forget Your Aches.

Stiff knees, aching limbs, lame back make life a burden. If you suffer from rheumatism, gout, lumbago, neuralgia, get a bottle of Sloan's Liniment, the universal remedy for pain. Easy to apply; it penetrates without rubbing and soothes the tender flesh. Cleaner and more effective than musky ointments or poultices. For strains or sprains, sore muscles or wrenched ligaments resulting from strenuous exercise, Sloan's Liniment gives quick relief. Keep it on hand for emergencies. At your Druggist, 25c.—Advertisement.

## What She Liked Best.

Madam Meiba, the singer, visited the exposition at San Diego, Cal., the other day. She was taken through the art gallery, over the beautiful grounds and through many of the buildings.

"What did you like best?" she was asked after the visit.

Meiba replied that the thing that struck her fancy most was a slice of watermelon in a glass jar.

## War Profits Beat Sugar Farmers.

Colorado beet farmers are profiting immensely by the war. Last year they harvested 1,820,000 tons of sugar beets which sold for \$10,417,000. This year they expect to harvest more than 2,500,000 tons and sell them for more than \$15,500,000.

Can't look well, eat well, or feel well with impure blood. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean, and good health is pretty sure to follow. \$1.00 a bottle.—Advertisement.

## Against Additional Expense.

Young Mrs. Green (to neighbor)—I'm having such trouble keeping our food. I bought a real nice looking refrigerator, but it doesn't seem to work well at all.

Neighbor—Do you keep ice enough in it?

Mrs. Green—Ice? I hope you don't think, after spending all that money on a refrigerator, we'd go to the additional expense of buying ice.—Boston Transcript.

## ANIMALS THAT NEVER EAT

Many Mechanical Appliances Have Been Given the Names of Birds and Beasts.

Have you ever realized what a number of scientific appliances have been named after animals? And can you furnish an explanation?

A mechanic puts his work upon a horse, or buck, and he punches or bends it by a convenient bear. Hoisting is done by a crab, a convenient cat is part of the outfit of a shop crane, and a kit of tools is ever at hand.

A crow helps to straighten work, a jack to lift it; a mule pulley helps to drive machinery which a donkey engine turns. A fish connects parts end to end, shells are used all over, while a worm does quiet but powerful work.

Again, a cock shuts off the water; a ram lifts it. A printing press has a fly, the first locomotives had a grasshopper valve motion, and butterfly valves are common.

Herring-bone gears are used by the best builders; turtles fit printing press cylinders, and fly wheels are running all over the world. In drilling, even, an old man is called into service, and doctors prevent faulty lathe work.

## Giant and Dwarf Honey Bees.

In some of the East Indian islands and on the mainland of Hindustan are to be found the smallest species of honey bees in the world. These dwarf honey collectors are known to entomologists as *Apis florea*. Their honeycombs are no longer than a child's hand and the cells are about the size of a small pin head. This honey is excellent, as is the wax. The little creatures build the comb on the branch of a low tree, and as they have not to provide for winter they work all the year through, raising broods like themselves.

In the same land there is a species of giant bees, *Apis dorsata*, as large as a field cricket. These monsters of the bee world build honeycombs that are from six to seven feet in length, four or more in width, and weigh from 300 to 400 pounds each.

## Stop The First Cold.

A cold does not get well itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your Druggist, 50c.—Advertisement.

## TO GET MAMMOTH ROASTERS

Large Fowls May Be Obtained by Crossing Plymouth Rock Cockerel on Light Brahmas.

Mammoth roasters may be obtained by crossing a large, vigorous white Plymouth Rock cockerel on big, well-developed yearling light Brahma hens. Feed them well, caponize the cockerels and you ought to get some 12 to 14-pound birds at nine or ten months old.

Hives, eczema, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment is fine for skin itching. All druggists sell it, 50c a box.—Advertisement.

## Three Types of Sea Mines.

Submarine mines are of three types. First, ground mines, which are usually of great size and laid directly on the bottom of shallow seas; second, anchored mines, which are attached by a cable to a weight on the bottom and are designed to float at a predetermined depth, so that they will touch and be detonated by passing ships; and, third, floating mines, which are dropped on the surface of the water.—Exchange.
